YOUR ITALIAN PARTNER FOR INTERIOR PROJECTS

Fulgini Contract is an Interior General Contractor, and, as such, it acts as a single point of contact in the management of the entire interior project, from A to Z. We take care of every detail in all phases of design and implementation, always guaranteeing continuity and willingness to listen.

Our structure is extremely flexible: we deal with private residences, as well as luxury hospitality, historic villas, offices or boutique hotels. We know how best to manage limited budgets, and also how to coordinate large and complex projects, in every corner of the world.

YOUR ITALIAN PARTNER FOR INTERIOR PROJECTS

PROJECT STUDY AND FINANCIAL EVALUATION

Every project starts by listening to the customer. The aim is to understand your ideas, taste and desires in depth, and make them our own.

Understanding you fully allows us to harmonies with your needs, anticipating them and creating a relationship of genuine collaboration.

PROJECT ENGINEERING AND DEVELOPMENT

Once feasibility is confirmed, the actual engineering begins. Every step of the project is unearthed through a technical, stylistic and economic analysis, which also considers the geographical and cultural context.

PRODUCTION AND QUALITY CONTROL

Once the bill of quantities (BOQ, the document that quantifies and estimates the materials and workmanship required in the project) has been drawn up, we move on to the production phase, which can be managed in-house or contracted to third parties.

LOGISTICS MANAGEMENT

We follow all the project logistics, from the manufacturers to the end customer.

Thanks to our highly specialized technical staff, we coordinate deliveries from the various manufacturers and collect them directly from our warehouses.

YOUR ITALIAN PARTNER FOR INTERIOR PROJECTS

ON-SITE SUPPORT AND MANAGEMENT

Our work does not end when the products are delivered. We are ready to go anywhere in the world to make sure that everything is perfect, once the keys are handed over to you.

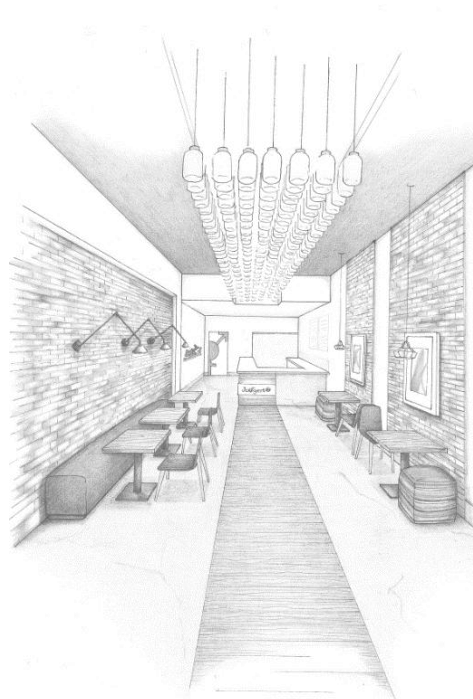

Depending on the context and specific needs, we provide different types of on-site intervention:

- Site management support, to prepare it for supplied product assembly;
- Delivery support, with competent staff who knows exactly how to handle and where to place the goods;
- Assembly support, by dispatching complete teams of professionals or supervisors from Italy, to help out local workers.

AFTER-SALES SUPPORT

We are always by your side, until the end of the project, and beyond. Our after-sales service gives you peace of mind for years to come.

You can count on us to support you all the way through. Our specialized teams are experienced in repairs and in solving any problems after delivery.
