

FLÛTE

FLÛTE

Lucci / Orlandini design

Flûte, collezione altamente direzionale, disegnata dagli Arch. Lucci e Orlandini, rivisitata, in chiave moderna, armonia di forme e materiali propri dell'high-life degli anni '50. Nostalgico il design, ma all'avanguardia i concetti di modularità, intercambiabilità, elettrificazione e accessoristica. Le finiture sono mogano honduras, noce biondo e ebano.

Finitions acajou Honduras, noyer clair et ebène. The new and high directional Flute collection, designed by architects Lucci & Orlandini, interprets the high life style of the fifties. The design is nostalgic but the concepts of modularity, interchange ability, electrification and fittings are extremely technological. The finishes are in Honduras mahogany, light walnut and ebony.

Flûte, la nouvelle collection de haute direction dessinée par les architectes Lucci et Orlandini, évoque en clé moderne l'harmonie des formes et des matériaux de l'high-life des années '50. Mais si le design a la nostalgie du passé, sa réalisation technique, la modularité, l'interchangeabilité des meubles de complément, le système d'électrification et les accessoires sont à l'avantgarde.

La preziosità di un arredo è rivelata dall'attenzione posta nel design evidenziandosi anche attraverso la cura dei particolari, la scelta degli accessori e l'inserimento di sottomanili in cuoio. Le paratie vengono proposte in cuoio, un contrasto di materiali che esalta e scandisce la purezza e la leggerezza di linee della scrivania.

The elegance of a furniture is highlighted by the unique design, the care for details, the choice of its accessories and the leather desktop inserts. Modesty panels are offered in leather. This contrast of materials enhances the purity and lightness of the desk's lines.

Le prestige d'un espace se révèle aussi dans le design, dans le soin des détails, le choix des accessoires et pour sousman en cuir. Les séparations sont proposées en cuir, un contraste de matériaux qui exalte et rythme la pureté et la légèreté des lignes des bureaux.

Il posto di lavoro in versione noce chiaro consente altresì flessibilità e massima componibilità nella purezza delle sue linee.

Ebano, cuoio, cristallo e cromo: materiali di alto pregio sapientemente coniugati tra di loro conferiscono a questa collezione un autentico status di classe e raffinata eleganza. Il succedersi di linee curve, ora rientranti, ora bombate, viene riproposto anche nei mobili di complemento.

The workplace in light walnut, with its pure lines, grants both flexibility and maximum modularity.

Ebony, leather, glass and chrome: precious materials wisely matched that give this collection a top class image of a refined elegance. The curved outlines sequence, at times hollowed or convex, is also offered in the complementary furniture.

Le poste de travail en noyer clair, permet une grande flexibilité et une grande modularité dans l'élégance et la beauté de ses lignes.

Ebène, cuir, verre et chrome: matériels de haute valeur sagement alliés entre eux et qui donnent à cette gamme une image de classe authentique et d'élégance raffinée. La géométrie variable des lignes courbes, tantôt concaves tantôt convexes, est reprise dans les meubles de complément.

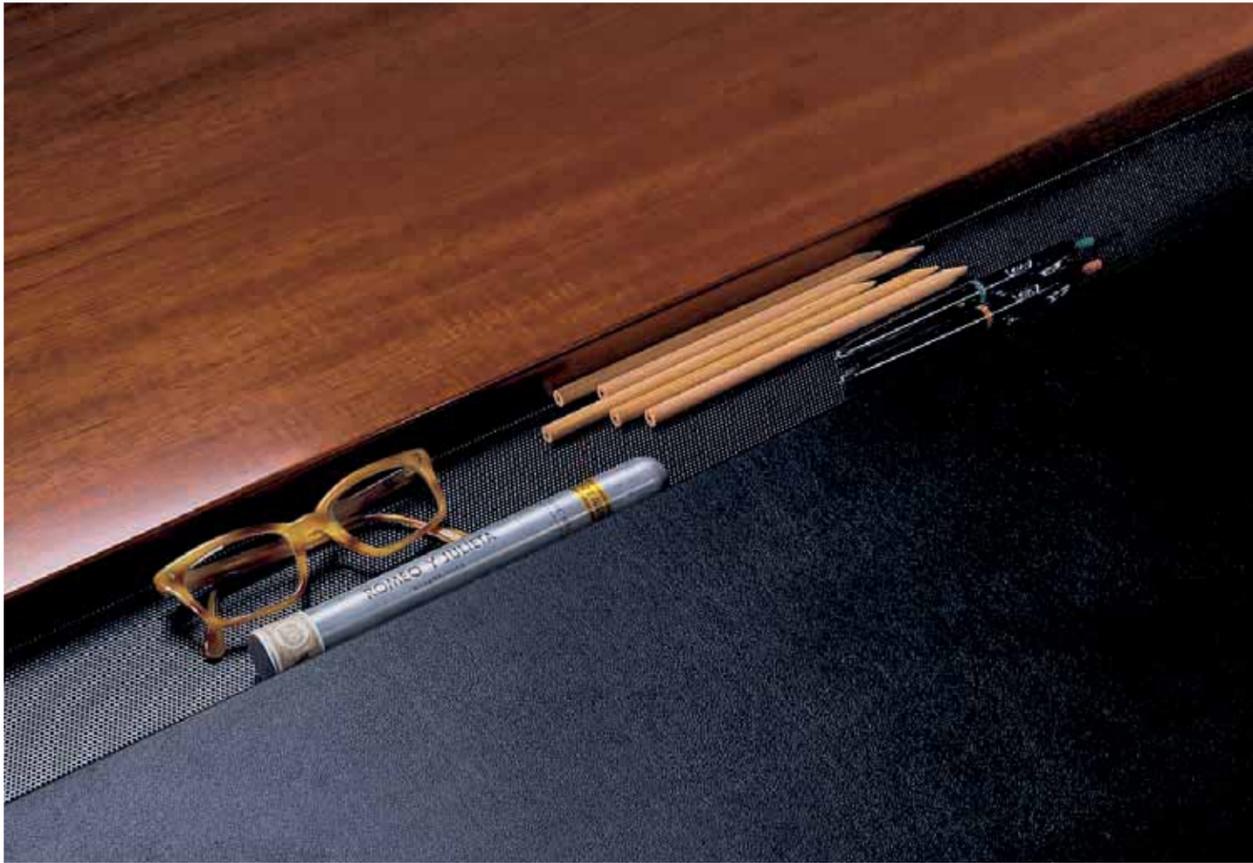

Modernissimi nella loro classicità, i tavoli riunione, anch'essi componibili, conservano il motivo della canalizzazione centrale elettrificata porta oggetti.

Extremely modern notwithstanding its classical style, the modular meeting tables are fitted with a central cable management support with a space also for housing objects.

Très modernes dans leur ligne classique, les tables conférence sont composables aussi, et l'on y retrouve la canalisation centrale électrifiée porte-objet.

Finitions

Le pregiate essenze di ebano, mogano e noce, conferiscono naturalezza ed eleganza.
I materiali della struttura e degli accessori si legano con i legni in modo equilibrato ed armonico: il cuoio impunturato, gli elementi in pressofusione spazzolato lucido ed il cristallo trasparente esaltano ed enfatizzano la ricchezza delle essenze lignee.

The use of precious woods such as ebony, mahogany and walnut, water veneered to an opaque finish, result in natural elegance. The materials used for the structure and accessories mix with the woods in a balanced and harmonious way: the stitched leather, the brush polished die cast elements and the transparent tempered glass, enhance the beauty and elegance of the wood elements.

Les précieux bois d'ébène, acajou et noyer, laqués à l'eau avec finition à pore ouvert et opacité prononcée, donnent naturel et élégance.
Les matériels de la structure et des accessoires se mélangent avec les bois de façon équilibré et harmonique: le cuir maillé, les éléments en sous pression de l'aluminium poli, et le verre transparent vantent la richesse des éléments en bois.
